

# Education at the polls!

When you educate at the polls there are a few things you should know.

1. Obviously, be kind and courteous. H4ML has worked hard to become the most trusted Medical Liberty group in the state. We want to remain that way. No swearing, no chasing people, dress respectably, and if people aren't interested let them be.
2. Be safe and always obey laws. No blocking motorist or pedestrian traffic.
3. You are acting under your own will therefore, H4ML is not liable for any injuries or consequences related to your participation.
4. **Do not enter polling places with educational material. This is not allowed.** Indiana State law requires that you stay 50 feet from the entrance of the polling place. If the property ends before 50 feet, then you must remain 1/2 the distance from the door to the property line.
5. You are acting as an individual and **do not** have permission to represent H4ML.
6. If you don't have a Medical Liberty Candidate in your district, consider traveling to another district. We are all impacted by legislators in other districts. This could be vital to our long term success.

## SAMPLE SCRIPT

When distributing literature, you might use phrases like below:

"Hi, are you concerned about Medical Liberty & coerced vaccination or testing?"

If they respond **negatively** tell them to have a great day and nothing more.

If they respond **positively** respond with something like, "It's a big issue, have you looked at where the candidates stand on the issue? I have some information about State House race, would you like to read it?" (Extend the flyer)

Again, **negative** response, "Ok, have a wonderful day."

**Positive** response, "Great here you go, take a good look, then put it in your pocket before you go into the polling site."

## Printing Fliers...

Once you find you find the district you will be educating in click the link, download the PDF, print (preferably in color) then cut into 4 on the lines provided.

Because each sheet is 4 cards if you print:

25 you get 100, 50 turns into 200, 100 gets you 400, for most polling places I am guessing that would be too many!

You can print at home or via a local copy shop. Just be sure your copies are legible.

You may choose to spread these around town before the primary as well.

Thank you for helping educate about Medical Liberty!!
