Businesses have the right to mandate.

Concerns over Right of Conscience

Civil Penalty:

1. Can still mandate, just must not take negative action against an employee with exemption- Microchip bill passed 2020 completely restricted the employer.
2. Requirements are placed on business every year by legislators.
3. Current exemptions for CERTAIN employees in the state. Why is the law discriminating against some.

1. Legislators took oath to uphold constitution which states:
 - a. No law shall, in any case whatever, control the free exercise and enjoyment of religious opinions, or interfere with the rights of conscience.[1]
2. Providing only for religion is discriminatory towards minorities and those who do not participate in religion.

1. Civil action only occurs IF employer takes negative action against employee.
2. Difficult to find attorney to take the case.
3. Few lawsuits will be filed, because most businesses will follow the law.
4. How many law suits over Right to Work prohibition on forced union participation?

Federal Law Provides Protections:

EEOC has taken the position that employers can mandate the vaccine, even during Emergency Use Authorization.
