

Liberty Dinner

Who: Determined Hoosiers looking for a way to protect our Medical Liberty.

What: Hosting a dinner for 5-7 friends in your home.

When: Beginning January 2023

Where: Hoosier homes across Indiana.

Why: Our liberty is on the line. The ability of local government to halt federal & state edicts is our last line of defense against things like covid contact tracing, vaccine passports, and severe lockdowns. Unfortunately, the Indiana Department of Health and the CDC have teamed up and plan to “centralize” or “regionalize” public health, using tax-payer money to remove local autonomy.

How:

1. Pick a date and invite 5-7 liberty minded friends over for dinner. You make the main dish, and your friends bring side dishes.
2. Think about why you are hosting the dinner. Review your reasons for being part of H4ML and the benefits you receive. What helps you the most? Is it easy text alerts? The resources on the website? Education on the political process or exemptions? You will want to be sure to share this with your friends. Encourage them to become members of H4ML with a monthly donation of \$10. These funds contribute to our sustainability & growth.
3. Download the Liberty Dinner Conversation Starters. Don't worry about having to “be the expert” or “know everything.” That isn't the point of these dinners. The goal is to bring like-minded people together, in person, and have take concrete actions to preserve our liberty. We will be adding new “Impact Points” to the website each month that will give you a concrete action item.
4. Host the dinner, enjoy time with your friends. Challenge them to host a Liberty Dinner as well.
5. Let us know how it went! Visit h4ml.org/libertydinners, scroll down and answer a few questions.
6. If you enjoyed spending time with others and taking actionable steps to maintaining Medical Liberty, review our Local Partners page h4ml.org/localpartners and start looking for a location!
